Thomas schools) attended from the state of Kentucky. Four other states were represented. The activities included sharing information on reform in their state, state group presentations, and work sessions which included prioritizing issues and strategic planning.

-passed out copies of the revised survey of psychological assessment services. Reported that Lesa Billings had passed out copies to State Department personnel and additional modifications were suggested. Will have one more revision so asked for further suggestions. It was agreed to place the School Personnel category first rather than contractual personnel and to send out the survey from the State Department of Education to increase responsiveness. A discussion was held on whether the survey should only target assessment personnel while leaving out additional job activities. Bob reported that he did not want to cloud the issue but begin with a clear picture of who provides assessment throughout the state. It was clarified that the survey was the outgrowth of the 5-year plan. Bob reported that he would like to review the survey further. Bill Pohl suggested contacting Jeff Grime as a resource for the collection of on-going data.

-as KASA liaison will be attending an intensive strategic planning conference next weekend (Jan 25-27) in Frankfort.

PRESIDENT (Pat McGinty)
reported that she attended the SE Regional Leadership conference with Bill P. and Jim B. from 11/30 to 12/20/90. All the SE states were represented. There was a workshop on financial planning, a NASP update and networking. Briefly discussed information on financial planning and reported that the information would be given to Bob Munroe if the EC would like to pursue changes in this area.

reported that the Restructuring Education Conference, attended by Bob K. and Lesa Billings, was reviewed by Sue Burkholder. The agenda for the five states in attendance was to discuss common issues and concerns and to gain information for dissemination to other groups in NASP. Purpose of the state reform, special features and preliminary outcomes in each state were discussed. Ky had the broadest reforms. Other states will be watching to see what develops in Ky. Common features include site-based decision making, high involvement of principal as manager, use of functional assessment, outcome-based planning, integration of special education, special education cost reduction, and alternate funding mechanisms. Suggested seeing Bob and Lesa for more details.

attended one day of the MidSouth regional conference in early November. KAPS has been invited to join them in planning and sharing expenses and income for the 1992 conference. The contract for the 1990 conference was discussed at this meeting. Louisiana and Arkansas were also considering involvement. The meeting was tentatively scheduled for Mississippi but will be up to the planning committee to determine the location. A discussion was held on whether KAPS should join the conference. It was clarified that they were unwilling to change the fall date of the conference, we must pay a $500.00 fee from which the profits are split and the conference is held every two years. It was concluded that Pat would write a letter declining membership at the present time.

reported that Karen Collier was selected to represent Kentucky for the NASP School Psychologist of the year award after much deliberation by those appointed to consider the nomination at the fall convention. There are now 23 states in the running and selection will take place in March. Stressed that the EC needed to consider now the selection process for the Ky 1992 representative. The nomination needs to be submitted next November. Felt there needed to be more input from our membership and longer consideration before selection. It was agreed that Pat and Bob K. would collaborate on the procedures.

Reminded members that the NASP media day is March 7, 1991. The Communique carried information on this topic in the last edition. The EC was encouraged to deliberate and consider how to publicize school psychology in the state on this day. Discussed Jim B receiving a letter from NASP. PI committee was encouraged to send out mailings although they may need broad assistance to reach many of areas of the state at the same time. Stressed that it was important to act soon to get some media coverage scheduled.

reported that nominations for President and Secretary are due at the end of this month. Encouraged members to give serious consideration to either nominate someone or run for the office. The election must take place at the end of March according to the Operating Procedures manual. The tenure begins in July.
KAPS has been asked to support a resolution for services to handicapped children ages 0 to 2 by Rich Lewis, Early Childhood specialist in JCPS. The funding is being requested so the 3-5 year old funding is not taken away.

-a discussion was held on having a "Professional Day" on Saturday, April 13 at a regional meeting at the last EC. A discussion was held on whether the workshop should be held for 1/2 day. Preliminary discussion centered on having a morning workshop, regional luncheons and an afternoon EC meeting. Some topic ideas were performance based assessment and educational reform pertaining to School Psychologists. Pat suggested submitting ideas for topics and potential speakers. Suggested locations included the KY Horse Park, Maywood and Shakertown.

-reported that it had been suggested that KAPS could have more continuity and active involvement as an organization if we had more EC meetings, perhaps convening bimonthly. The EC was encouraged to discuss the ramifications of this proposal.

COMMITTEE REPORTS

MEMBERSHIP (Mike Walters)

-reported the current membership to be 119. Renewal letters would be sent out that week. A new membership packet was developed which included Ethics and CPD information, recent newsletter, KAPS directory, membership card and certificate. Bill P. suggested including NASP membership application. The membership packet will now have Lin's address. It was decided that one fee would be charged regardless of the time of year members joined. A request was made for a "retirement" category which will have the same fee as student. The KAPS membership certificates were misplaced and members were asked if anyone had copies. Jim suggested using the awards certificates. The main task left for the committee is the current directory. Lin has the names in a data base. Bill asked that membership packets be sent to the universities. Pat questioned the need to increase dues which was not felt to be needed at the present time.

LEGISLATIVE (Karen Collier)

-since Karen is new to the committee there was no current news to report. Requested that the phone tree be reviewed.

-raised the issue of the OEEC guidelines, in particular the L.D. guidelines. A discussion was held on the 3-year re-evaluation procedures such as modifying the use of tests, etc. The point was made that we do not want to alienate the OEEC. The guidelines continue to be revised. A discussion was led by Bill P. on recent lawsuits brought by the Civil Rights Act regarding students not receiving adequate services. It was brought to the members attention that we needed to be aware of the H.B. 838 which resulted in the formation of the Regional InterAgency Councils (RIAC).
